

Request For Applications: Fiscal Year 2014 International Food Relief Partnership Transportation, Delivery and Distribution Applications

The International Food Relief Partnership (IFRP) is a U.S. Agency For International Development (USAID) program to support the production, stockpiling, transportation, delivery, and distribution of shelf-stable, prepackaged foods by U.S. non-profit and Public International Organizations (PIO). This request for applications (RFA) applies to applications for grants for the transportation, delivery and distribution of IFRP products.

Grants awarded under the IFRP program are authorized by section 208(f) of the Food for Peace Act, 7 U.S.C. § 1726b (f), and will be made and governed in accordance with the guidelines and procedures referenced in this RFA, all applicable requirements of USAID 22 C.F.R. 211, 22 C.F.R. 216, 22 C.F.R. 226, OMB Circulars and the USAID Standard Provisions.

Eligibility Requirements

To be eligible for a grant, an organization must be a U.S. non-profit organization (as described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of the Internal Revenue Code of 1986) or an Intergovernmental Organization like the World Food Program (WFP).

Application Timing

There will be one application review cycle during Fiscal Year 2014. **Completed applications must be received by Food for Peace, per instructions below, no later than 12:00 p.m. (Noon) (Eastern Daylight Time (EDT)) on April 23, 2014. Applications received after 12:00 p.m. (Noon) (ET) on that date will not be accepted.**

The RFA applies to both new applicants and current grantees seeking funding. USAID welcomes new partners for the IFRP program.

Submission Procedures

Food for Peace is requesting that applicants use the Food for Peace Management Information System (FFPMIS) to apply for an IFRP grant under this RFA. FFPMIS can be accessed at <https://usaid-ffp.entellitrak.com/>.

- Users' guides and additional FFPMIS resources can be found on the TOPS site, <http://www.fsnnetwork.org/document/food-peace-management-information-system-ffpmis-resources>.
- Any technical questions on use of FFPMIS should be emailed to FFPMIS_Support@devis.com.

- The FFPMIS Helpdesk hours of operation are 9:00 a.m. to 5:00 p.m., Monday through Friday. Potential applicants are encouraged to start the submission process early as technical questions are answered in the order in which they are received and replies may take more than one business day.
- All other application inquiries should be submitted to the Office of Food for Peace, attn. Benjamin C. Vogler, at IFRP@amexdc2.com.

FFPMIS submission will require a combination of data entry and document uploads. Applicants must complete both direct entry and document upload portions of the application in order to be considered for funding.

Available Products

For FY 2014, two products are available for distribution: Harvest Lentil Pro and Nutributter.

Product	Harvest Lentil Pro (404-1.0)	Nutributter
Producer	Breedlove Foods, Inc.	Edesia
Location	1818 North Martin Luther King, Jr. Blvd Lubbock, Texas 79403	88 Royal Little Dr Providence, Rhode Island 02904
Primary beneficiary populations	General population (e.g., maternal/child health, school feeding, hospital patients, orphans, clinics, emergency feeding, food for work)	Children 6 – 24 Months
Total Metric tons (MT) available in FY 2014	2,026.08 MTs	315.36 MTs
Maximum that can be requested in each application	Up to eight (8) 40 -foot containers, which is equivalent to approximately 150.08 MTs or precisely 10,720 boxes (each containing 14-1- kg bags) Note: 1 bag = 50 20-gram servings.*	Up to four (4) 40 -foot containers, which is equivalent to 70.08 MTs and 5,840 boxes (each containing 600 20-gram sachets) Note: 1 sachet = 1 daily serving.**
Servings in maximum level	7,504,000 20-gram servings	3,504,000 20 gram servings
Suggested servings per day	One 20 gram serving rehydrates to one cup, 1-3 per day, determined by program goals	One 20 gram serving (equivalent to one sachet)
Further information on use and logistics requirements	http://www.breedlove.org Hope Floeck; hopefloeck@breedlove.org , 806-741-0404, ext. 401	http://www.edesiaglobal.org/ Maria Kasparian: mkasparian@edesiaglobal.org 401-272-5521 – ext. 1104

*Although not required, USAID recommends that IFRP grant applicants, who are not requesting the maximum Harvest Lentil Pro (404-1.0) tonnage level as referenced in the above chart, should consider requesting increments of either one of the following lower tonnage levels:

75.04 MTs = 4, 40' containers
93.08 MTs = 5, 40' containers
112.56 MTs = 6, 40' containers
131.32 MTs = 7, 40' containers

**Although not required, USAID recommends that IFRP grant applicants, who are not requesting the maximum Nutributter tonnage level as referenced in the above chart, should consider requesting increments of either one of the following lower tonnage levels:

35.04 MTs = 2, 40' containers
52.56 MTs = 3, 40' containers

Each applicant may request up to \$150,000 of funding per application (excluding commodity value). It is not mandatory, however, that applicants request that level of funding or the maximum level of the product (see chart above). Note: Funding is available for costs directly associated with the movement, management and monitoring of IFRP products. Funding will not be considered for vehicle purchase, project materials, and office equipment.

Application Documentation

Applications must include the following: 1) proof of eligibility per requirements listed above; 2) application technical narrative (*in MS Word format, 12-point font, single spaced, and not to exceed ten pages in length*); 3) detailed and summary budgets (*in MS Excel or MS Word format*) along with a detailed budget narrative; 4) documentation supporting proposed indirect cost rate, if applicable (*see Budget section below for more details*); and 5) Certifications, Assurances, and other Statements of the Recipient, including terrorism and lobbying certifications (<http://www.usaid.gov/documents/1866/certifications-and-assurances>).

Application Format and Review/Scoring Procedures

Due to the high volume of applications anticipated, applicants must use the following format. All applications will be reviewed by a committee and scored based on 100 possible points using the following criteria and possible maximum number of points per criteria

I. Executive Summary (Not Scored)

Provide a brief summary of the nature of the food security and nutritional situation in the proposed country, and for the population targeted, provide an overview of the proposed program, the type and amount of product requested, and the funding requested.

II. Organizational Capacity (15 points)

Provide a brief description of the organization and all local partner organizations. Include a brief history of all of the organizations' activities in the proposed country of operation and any previous experience with the distribution of food aid commodities, including previous IFRP activities, if any, in the proposed country of operation, or elsewhere. Please identify any other donor organizations that have previously supported or currently support the organization.

III. Situation Analysis (20 points)

Present a concise description of the food security and nutritional situation in the country, proposed areas of operation, and proposed beneficiaries. Provide an explanation of why those areas have been selected and a brief description of the proposed beneficiaries, rationale for targeting them, number of beneficiaries, and an explanation of criteria used to select them. Include any relevant statistics or assessment data (from the applicant and/or other organizations), which help explain the need for the proposed program.

IV. Program Objectives and Strategy (25 points)

Provide the overall goals and objectives of the program. Describe in detail the proposed food distribution activities. Discuss how an IFRP grant would contribute to addressing the problem of food insecurity among the targeted population and how the IFRP activities enhance or are integrated into the applicant's ongoing program. Include a monitoring and evaluation plan that outlines how progress against objectives and overall program impact will be tracked. Provide a monitoring and reporting schedule, and any plans for an internal or external evaluation of the program.

V. Implementation Plan (30 points)

Provide a concise explanation of how program activities will be implemented. Outline logistical arrangements pertaining to accessing, loading, and shipping, storing, handling and distributing the product, and a solid waste management plan. Provide a delivery and distribution schedule and a list of proposed distribution sites. Provide an explanation of why the product requested is appropriate for the proposed target population. Describe ration size per beneficiary, and proposed distribution procedures. Include any relevant information pertaining to coordination with the host government, other organizations, or other program activities that complement or facilitate the use of IFRP products.

IMPORTANT – There are two (2) important factors that are required to be addressed in the Implementation plan.

- 1) In order to avoid potential interference and/or duplication of other programs in the same country/region(s), applicants must demonstrate that they have coordinated with host country government(s) and/or the USAID Mission, Food for Peace funded activities and also other donors operating in-country. USAID strongly emphasizes that as a part of this

scoring component, that applicants must describe in sufficient detail, their overall knowledge and awareness of other food security activities being implemented in their proposed country/region(s) by the either: 1) any host country government and/or local governance activities; or 2) any/all other organizations such as the WFP and/or any other PIOs, PVOs, & NGOs operating in the region/country. This is a mandatory part of the scoring component of the Implementation Plan.

- 2) As a part of the Implementation Plan, product distribution activities must include detailed planning for management of product-related solid waste packaging in particular individual product wrapping/ containers/boxes/bags/sachets. Grantees must notify USAID in advance of complementary activities (e.g., rehabilitation of infrastructure, provision of medical supplies and vaccination campaigns, home gardening) that may negatively impact or harm environment, per USAID environmental compliance procedures (22 CFR 216). Please refer to the following web link for additional information on this requirement:

http://gemini.info.usaid.gov/egat/envcomp/document.php?doc_id=39080

VI. Budget and Budget Narrative (10 points)

Provide a detailed budget, including a breakdown of costs within the following line item categories (headquarters and field personnel; transport, storage, and handling; local travel; other direct costs; and indirect costs, if applicable – see below); Any non-federal cost-share including total amount and description; and documentation substantiating proposed indirect cost rate if application contains indirect costs. *(Note: Applications may only include indirect costs if an organization has an established Negotiated Indirect Cost Rate Agreement (NICRA)).*

Provide a budget narrative containing a clear and complete description of all line items in the budget.

Additional Guidance

All applicants should consider the following while formulating their applications:

NOTICE REGARDING FREIGHT FORWARDERS: In light of the recent debarment of certain freight forwarders, organizations are strongly advised to check the Excluded Parties Listing System (www.sam.gov) prior to providing new work to freight forwarders through new awards, extensions of existing awards, increases in scope of existing awards and increases in the total estimated amount of existing awards.

Organizations may submit no more than two separate grant applications. Each grant application can propose only one (1) product for one (1) country.

All proposed grant goals, objectives and activities, along with the receipt/loading, rapid transportation, and delivery of the product in-country, must be achievable within 18 months.

Upon receipt of an award, grantees may contact the manufacturers for the overall availability of the products and for planning/the arrangements for receipt, loading and delivery.

To permit flexibility to respond to emergencies, grants will contain a provision allowing grantees to divert up to 25 percent of the product tonnage to respond to sudden onset disasters in the country for which IFRP funds were provided, without the requirement of a formal grant modification. However, grantees must notify USAID in advance of any diversion of the product for sudden onset disasters and must obtain USAID approval to divert the product. Grantees may not divert the product if informed by USAID that such diversion is inconsistent with requests from the host government, USAID Mission, or American embassy.

Grant modifications, after award, for deviations from program and/or budget plans, such as to address sudden onset emergencies that require the diversion of more than 25 percent of the product will follow procedures set forth in Code of Federal Regulations Title 22, Part 226 section 226.25, "Revision of budget and program plans."

Application Review and Award Requirements

There will be separate technical evaluation committees for each product.

After notification of a potentially successful application, but prior to signing an award, successful applicants will be required to submit:

- A statement by the applicant assuring that the product can be imported duty-free, along with any information and associated documentation that supports the statement. Such documentation can include, but is not limited to, written certification by the USAID Mission or Diplomatic Post, or a Host Country Agreement.
- Branding Strategy and Marking Plan
- DUNS Number & SAM Registration (**Note: If they have not done so, applicants are encouraged to apply for a DUNS number and to ensure that they are registered with the System for Award Management (SAM) in order to facilitate the eligibility for a federal grant award. The SAM website can be found here: <https://www.sam.gov>. Applicants should do this well in advance of the application submission and review period because it may take three weeks or more to obtain the number online.**)

Reporting Requirements and Program Completion

All proposed grant goals, objectives, and activities, including the receipt/loading, rapid transportation, and delivery of the product in-country, must be achievable within an 18 month timeframe or performance period. Successful applicants must submit a final report within ninety (90) days of the agreement expiration date summarizing how and why the goals and objectives

were met, or, if the overall goals and benchmarks were not met, an explanation of why not. The final report should focus on results achieved and should be substantiated with quantitative data as appropriate. Final reports should be submitted in electronic format to FFP at IFRP@amexdc2.com.

IFRP Program Frequently Asked Questions

If I have received an IFRP grant agreement in the past, may I apply for another one?

Yes. There is no limit to how many IFRP grants an organization may receive throughout the life of the IFRP program.

Is preference given to returning grantees or to new partners?

No. All applications are scored solely on the information provided in the application.

Is a host country agreement required?

If an organization's application is considered for funding, it is essential that the organization provide USAID written assurance by the host-country government (country where activities are to be implemented) that all of the product will be allowed to be imported duty-free. This documentation can include, but is not limited to, written certification by the USAID Mission or American embassy, or via an already existing host country agreement.

Are there USAID environmental compliance requirements for IFRP grants?

Yes. The potential for environmental risk or impact is addressed for all USAID funded activities under 22 CFR 216. An applicable document for IFRP review is the Programmatic Initial Environmental Examination for IFRP is available at: <http://gemini.info.usaid.gov/egat/envcomp>.

Are faith-based organizations eligible to apply for IFRP grant agreements?

All U.S. based, non-profit organizations registered under the IRS Federal Tax Code 501(c)(3) are welcome to apply.

What if an organization cannot fit all of the information USAID is requesting into a ten page application?

Applicants must provide all of the information as outlined in the guidelines. Please note, however, that the summary and detailed budgets, along with the budget narrative, are not a part of the ten page technical narrative limitation.

How will USAID score an application?

Technical evaluation committees review and score all applications based on the criteria stated in the RFA. There will be separate committees for each product. All scoring criteria are detailed in the review procedures section of this RFA so be sure to review them carefully. All applications are considered by USAID to be stand-alone documents, so each is only scored on the information contained within a submitted application and not on any other past documents or correspondence.

Since the grant performance period is for 18 months, should my program activities continue for 18 months?

No. The program activities, along with all logistics of the receipt/loading, rapid transportation, and delivery of the products in-country, and allowance of time for close-out activities should be within the 18 month timeframe, start to finish. We recommend distributions for up to 12 months.

When will we actually receive the product once the grant has been issued?

Once a grant agreement has been issued to your organization, your organization must then initiate the shipping process. Your organization will be solely responsible for making all logistical arrangements with your own freight forwarders/shippers/handlers for the receipt/loading of the product at the producer's facility, and also, for the rapid transportation, and delivery of the product in-country thereafter. USAID is **not** involved in this process under the IFRP program.

Do organizations have to coordinate with the USAID or other organizations providing food aid in my proposed country of operation?

Applicants must be aware of food assistance programs in their proposed area of operations to ensure there is no duplication with other programs.

Do ocean freight costs need to be included in the \$150,000 grant limit?

Yes. All ocean freight and other associated costs must be included in the proposed budget and within the \$150,000 limitation. The cost for the products is not included.

Once confirmation has been received that we have been selected to be a grant recipient can we start the planning process for the project?

Potential grantees may begin planning at any time but will only be reimbursed for costs incurred after a grant is signed.

Are there specific requirements related to managing and storing the product?

Yes. Please refer to the Commodities Reference Guide Section III: Storage and Shelf Life Specifications available at the following link:

http://www.usaid.gov/our_work/humanitarian_assistance/ffp/crg/sec3.htm
