

# Program Cycle Support

Program Cycle Support (PCS) supports the Bureau for Humanitarian Assistance-funded implementing community in their efforts to design and implement evidence-based, effective, efficient, and sustainable development activities that result in improved food and nutrition security.

PCS partners with resilience food security activities (RFSAs) in the following areas to:

## INCEPTION

<p>Identify learning priorities</p>	<p>Review the TOC to:</p> <ul style="list-style-type: none"> <li>Identify opportunities to improve clarity, strengthen logic, and show sustainability thinking</li> <li>Identify potential information gaps to explore during the refinement period</li> <li>Adapt activity design or implementation strategy, based on lessons learned</li> </ul> <p>Build capacity to understand and use the TOC</p>	<p>Orient staff on SBC and how it is critical to RFSA results</p> <p>Identify where SBC appears in the TOC</p> <p>Work to prioritize behaviors and identify how to sequence and layer</p> <p>Develop an SBC strategy</p> <p>Work to incorporate SBC indicators into the monitoring and evaluation plan</p>	<p>Review key factors for sustainability, experiences from previous RFSAs, and proposal sustainability strategies</p>
-------------------------------------	--	--	---

## CULMINATION

<p>Identify and triangulate key learnings and refinements prior to the culmination workshop</p>	<p>Use the TOC to reflect on sustainability planning</p>	<p>Operationalize the SBC strategy and adjust based on routine monitoring</p>	<p>Identify local service providers, services, and behaviors</p>
---	--	---	--

## MID-TERM EVALUATION

<p>Review and analyze the implications of the mid-term evaluation (MTE) on the implementation strategy</p>	<p>Use the TOC to adapt the activity design or implementation strategy, based on indicator or context monitoring data</p>	<p>Review and adapt SBC strategy based on the MTE</p> <p>Document SBC promising practices and success stories</p>	<p>Based on the MTE:</p> <ul style="list-style-type: none"> <li>Analyze the potential to sustain outcomes, services, and behaviors</li> <li>Revise strategy to determine which outcomes to prioritize/eliminate and areas of focus for implementing the strategy</li> </ul>
--	---	---	---

## END OF CYCLE

<p>Review, consolidate, and disseminate lessons learned</p>		<p>Review, consolidate, and disseminate lessons learned</p>	<p>Identify learnings to build evidence on sustainability</p>
---	--	---	---
