Save the Children in Bangladesh-	2200	7056000.00
Echo DeSHARI/SCI	3011	15055000.00
Sub total	19906	59464640
Cold Wave		
Manusher Jonno Foundation	1100	275000.00
Grand Total	21006	59739640

Process of Coordination and Cooperation

We work with Local Government as bellow steps:-

- Project briefing.
- **Area demarcation.**
- Regular coordination with GOB and NGO's for avoiding over leaping.
- Beneficiaries selection through community consultation and house hold visit.
- Beneficiaries endorsement.
- Beneficiaries list published in web portal (A 2 I).
- Hard copy hanging to Union Parishads and public places.
- **Fixation of Grants distribution date & Places with local government.**
- Listed beneficiaries mobilization for Food/Non-food/Cash/SIM distribution center.
- Post monitoring for learning and held feed back session.
- Conducted learning session among staffs.
- **Obtaining of Certification of distribution.**

Experience on Disaster in SHOUHARDO II Program field.

- In 2014 flood, SHOUHARDO II Program area uses the tools & methodology-
- **Emergency Response & Recovery** worked efficiently done by the
- Emergency Preparedness Plan(EPP).
- Emergency Response Team(ERT).
- **Upazilla Disaster Management Committee (UzDMC).**
- Union Disaster Management Committee(UDMC)
- Union Disaster Volunteers.(UDV).
- **Village Development Committee(VDC) .**
- Project Implementation Committee (PIC).
- **At the same time all the SHOUHARDO II Program and other projects** staffs were dedicated in emergency activities out of their normal routine work
- * Ensured the Accountability before, during and after disaster on Emergency Response & Recovery.

How SOLIDARITY switched over DRR/development program to Emergency?

SOLIDARITY :-

- (1) Preferred to work on humanitarian issue like reduce the flood damage and try to save the causality through rescue team as well as awareness on climate change adaptation & small mitigation.
- (2) Always to do work to increase community resilient in working area of DRR/development program affected by the recent disaster.
- (3) ERT response with immediate effect.
- (4) Early warning system always to disseminate quick and quality information to the community through UDV, SBTB under UDMC.
- (5) On Health, Agriculture, Livestock support both soft and hard are available in the community by the GO and NGO's

Already the following methods and tools are incorporated in the other programs

Emergency Preparedness Plan(EPP),

Key whole method for garden,

Improve stove,

Flood & drought tolerant variety rice,

Bagging method & vertical method,

Floating method garden and seed bed,

Home state raising,

Flood shelter for human and cow shelter for animal ,

Bamboo made bundle.

Human resource development,

Tree plantation and vegetation,

Fodder for animal and protection of soil erosion

Recommendation

Long time project rather than Short time project

To adapt the technology for reducing Chronic disaster in the community.

Reconstruction/Recovery program should be continued to reduce on damages and loses of properties in affected area.

Program would be more sustainable on the need base apaches
