FOOD SECURITY AND NUTRITION LEARNING MECHANISMS

IDEAL

IDEAL (Implementer-Led Design, Evidence, Analysis & Learning) addresses knowledge and capacity gaps expressed by the food and nutrition security implementing community to support them in the design and implementation of effective emergency and development activities.

If you work in emergency or development food security programming, you can benefit from IDEAL through:

- Capacity strengthening
- Stakeholder consultations
- Small grant funding opportunities
- Events and webinars
- Communities of Practice

info@fsnnetwork.org
www.fsnnetwork.org/ideal

PRO-WASH
Practices, Research and Operations in Water, Sanitation and Hygiene

PRO-WASH (Practices, Research and Operations in Water, Sanitation and Hygiene) works with partners to strengthen the quality, effectiveness and sustainability of WASH practices in both emergency and development food security activities.

If you implement or support emergency or development programming in WASH, you can benefit from PRO-WASH through:

- Capacity strengthening
- Small grant funding opportunities
- Practical tools and technical materials
- Events and webinars

pro-wash@savechildren.org
www.fsnnetwork.org/pro-wash

SCALE
Strengthening Capacity in Agriculture Livelihoods and Environment

SCALE (Strengthening Capacity in Agriculture, Livelihoods and Environment) works to strengthen the impact, sustainability and scalability of agriculture, natural resource management and alternative livelihood activities in both emergency and development food security contexts.

If you implement or support agriculture, natural resource management or alternative livelihood activities, you can benefit from SCALE through:

- Capacity strengthening
- Research
- Practical tools and technical materials
- Events and webinars
- Communities of Practice

scale@mercycorps.org

REAL
Resilience Evaluation, Analysis and Learning

REAL (Resilience Evaluation, Analysis and Learning) provides technical guidance and practical support for design, monitoring, impact evaluation, strategic analysis and capacity strengthening related to resilience programming.

If you are an emergency or development practitioner interested in integrating resilience design and measurement principles in your programming, you can benefit from REAL through:

- Capacity strengthening
- Research
- Practical tools and technical materials
- Events and webinars
